## $5^{\text {th }}$ Grade Worksheet Bundle: Volume Two

Printable math, reading, and literacy worksheets from Edmentum Exact Path.

Math Activities

Fill in the patterns and complete the ordered pairs.

Fill in the patterns and complete the ordered pairs.

| Rule: Add 1 | 0 | 1 | 2 | 3 | 4 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Rule: Add 5 | 0 | 5 | 10 | 15 | 20 |
| Ordered Pair | $(0,0)$ | $(1,5)$ | $(2,10)$ | $(3,15)$ | $(4,20)$ |
| Rule: Add 6 | 0 | $\mathbf{6}$ | 12 | 18 | 24 |
| Rule: Add 2 | 0 | $\mathbf{2}$ | $\mathbf{4}$ | $\mathbf{6}$ | 8 |
| Ordered Pair | $(0,0)$ | $(6,2)$ | $(12,4)$ | $(18,6)$ | $(\mathbf{2 4 , 8 )}$ |

Graph the ordered pairs and draw a line to connect them.

How are the rules related?

The numbers in the second pattern are five times the numbers in the first pattern.
You can multiply the numbers in the first pattern by 5 to get the numbers in the second pattern.
The numbers in the second pattern are one third of the numbers in the first pattern.
You can divide the numbers in the first pattern by 3 to get the numbers in the second pattern.

Fetch the Figures
Activity Sheet

Classify each figure using as many names as you can.
Some names will be used more than once.

| - quadrilateral | - paralleogran | • rectangle |
| :--- | :--- | :--- |
| - square | • right triangle | • acute triangle |
| - scalene triangle | • isosceles triangle | • equilateral triangle |
| - rhombus | - obtuse triangle |  |

1

## 3

## (5)

6

Cassify each figure using as many names as you can.
Some names will be used more than once.

- quadrilateral
- parallelograr
- rectangle
- square
- right triangle
- acute triangle
- scalene triangle
- isosceles triangle
- equilateral triangle
- rhombus
- obtuse triangle

## 1

equilateral triangle, isosceles triangle

## 3

quadrilateral, parallelogram

## 5

right triangle, isosceles triangle
quadrilateral, parallelogram, square, rectangle, rhombus

## 4

obtuse triangle, scalene triangle
(2)

quadrilateral, parallelogram, rectangle

## Name:

$\qquad$ Class:

Sten, Manu, Klara and Stig decided to race their pigeons to see how far they would travel over a distance of 36 miles.
Below are the results.
Which order did the pigeons come in?

$\qquad$

$$
\frac{4}{9}=\quad \text { miles }
$$

(2) Manu's pigeon travelled $\frac{2}{12}=$ $\qquad$ miles
(3) Klara's pigeon travelled $\frac{5}{18}=$ $\qquad$ miles

It came in

They then decided to have a relay to see how far the pigeons could travel in total over a distance of 60 miles.

(a) Sten's pigeon went first.

It travelled $\frac{2}{12}=$ $\qquad$ miles

(C) Then Stig's pigeon was third.

It travelled $\frac{2}{6}=$ $\qquad$ miles
(d) Manu's pigeon went last.

(b) Klara's pigeon was second.

It travelled $\frac{3}{10}=$ $\qquad$ miles

It came in
It came in
$\qquad$
(4) Stig's pigeon travelled

$$
\frac{2}{6}=\quad \text { miles }
$$

Sten, Manu, Klara and Stig decided to race their pigeons to see how far they would travel over a distance of 36 miles.
Below are the results.
Which order did the pigeons come in?

(1) Sten's pigeon travelled $\frac{4}{9}=16$ miles

It came in 1st

It came in

$$
\frac{2}{12}=6 \text { miles }
$$

(3) Klara's pigeon travelled

$$
\frac{5}{18}=\quad 10 \text { miles }
$$

(4) Stig's pigeon travelled

$$
\frac{2}{6}=12 \text { miles }
$$

It came in 2nd

They then decided to have a relay to see how far the pigeons could travel in total over a distance of 60 miles.

(a) Sten's pigeon went first.

It travelled $\frac{2}{12}=$ $\qquad$ miles

(C) Then Stig's pigeon was third.
 It travelled $\frac{2}{6}=\quad 20$ miles
(d) Manu's pigeon went last. It travelled $\frac{2}{15}=$ $\qquad$ miles

(e) How far did they travel altogether?

Multiply.
(5) $\frac{1}{4} \times \frac{3}{10}=$
(6) $\frac{2}{3} \times \frac{9}{10}=$
(7) $\frac{1}{5} \times \frac{4}{5}=$
(8) $\frac{7}{9} \times \frac{2}{3}=$
(9) $\frac{9}{10} \times \frac{3}{5}=$
(10) $\frac{2}{5} \times \frac{4}{7}=$
(11) $\frac{3}{4} \times \frac{7}{12}=$
(12) $\frac{1}{3} \times \frac{1}{5}=$

## Popcorn Portions - Answer Key

Activity Sheet

Multiply.
(5) $\frac{1}{4} \times \frac{3}{10}=\frac{1 \times 3}{4 \times 10}=\frac{3}{40}$
(6) $\frac{2}{3} \times \frac{9}{10}=\frac{2 \times 9}{3 \times 10}=\frac{18}{30}=\frac{3}{5}$
(7) $\frac{1}{5} \times \frac{4}{5}=\frac{1 \times 4}{5 \times 5}=\frac{4}{25}$

8 $\frac{7}{9} \times \frac{2}{3}=\frac{7 \times 2}{9 \times 3}=\frac{14}{27}$
(9) $\frac{9}{10} \times \frac{3}{5}=\frac{9 \times 3}{10 \times 5}=\frac{27}{50}$
(10) $\frac{2}{5} \times \frac{4}{7}=\frac{2 \times 4}{5 \times 7}=\frac{8}{35}$
(11) $\frac{3}{4} \times \frac{7}{12}=\frac{3 \times 7}{4 \times 12}=\frac{21}{48}=\frac{7}{16}$
(12) $\frac{1}{3} \times \frac{1}{5}=\frac{1 \times 1}{3 \times 5}=\frac{1}{15}$

Sten is going shopping to buy items to take to school for his lunch.

cheese stidks - $\$ 2.99$

applesauce - \$1.27

crackers - \$1.25

granola bars - $\$ 2.19$

fruit cup - $\$ 2.50$
vegatables with dip - $\$ 1.75$
(1) Which three things can he buy for less than $\$ 6.00$ ?

What is their total?
(2) Which four items can he buy for less than $\$ 7.00$ ?

What is their total?
(3) Which two items can he buy for between $\$ 4.00$ and $\$ 5.00$ ?

What is their total?
(4) Sten has $\$ 6.00$. He needs to pick three items for his lunch. What two different combinations of three items can he buy for less than $\$ 6.00$ ?
a
b

What is their total? \$6.46
(4) Sten has $\$ 6.00$. He needs to pick three items for his lunch. What two different combinations of three items can he buy for less than $\$ 6.00$ ?
a fruit cup, applesauce, granola bars
b vegetables with dip, crackers, cheese sticks

Help finish Sten's space adventure by filling in the missing times.

Sten began his space journey at 6:15 a.m. He started to prepare his spaceship three and a half hours before, at ___ By 6:05 a.m. he was ready, and he radioed through to mission control to tell them it was time to start his countdown. It was so exciting! All the lights on the flight deck lit up, and the engine roared. Sten couldn't help grinning, but if he were honest, he would have admitted to feeling a little nervous. Two hours and twenty minutes later at , Sten had finished orbiting Earth and was getting impatient. He wanted to arrive, although he knew his journey would take ages. After looking at a book for 35 minutes at ____ Sten turned on his space television. One hour later, at _ _ , he started to feel a bit tired. Suddenly, Sten woke up with a jump! "Oh no!" he thought to himself, "How on Earth could I have nodded off at such an important time? I've been asleep for one hour and fifteen minutes, and the time is now $\qquad$
Carry the story of Sten's adventure into space below.
Don't forget to include the times when things happen.

Help finish Sten's space adventure by filling in the missing times.

Sten began his space journey at 6:15 a.m. He started to prepare his spaceship three and a half hours before, at 2 :45 a.m. By 6:05 a.m. he was ready, and he radioed through to mission control to tell them it was time to start his countdown. It was so exciting! All the lights on the flight deck lit up, and the engine roared. Sten couldn't help grinning, but if he were honest, he would have admitted to feeling a little nervous. Two hours and twenty minutes later at 8:25 a.m., Sten had finished orbiting Earth and was getting impatient. He wanted to arrive, although he knew his journey would take ages. After looking at a book for 35 minutes at 9:00 a.m. Sten turned on his space television. One hour later, at 10:00 a.m., he started to feel a bit tired. Suddenly, Sten woke up with a jump! "Oh no!" he thought to himself, "How on Earth could I have nodded off at such an important time? I've been asleep for one hour and fifteen minutes, and the time is now 11:15 a.m.."
Carry the story of Sten's adventure into space below.
Don't forget to include the times when things happen.

## Students extend the story in the same style, including the times that events happened.

11 Granny bought 8 apples to share equally between 9 people. How many apples will each person get?
(12) 3 fruit rolls were shared equally between 5 people. How much fruit roll did each person eat?

11 Granny bought 8 apples to share equally between 9 people. How many apples will each person get?

$$
\frac{9}{8} \text { or } 1 \frac{1}{8}
$$

3 fruit rolls were shared equally between 5 people. How much fruit roll did each person eat?

## $\frac{3}{5}$

## 気会 Reading and Literacy

Write an imaginary letter to the Brothers Grimm.
The letter should include:
the most interesting things you learned

Name: Class:

```
Write an imaginary letter to the Brothers Grimm.
The letter should include:
the most interesting things you learned
a comment about your favorite Grimm fairytale, and
questions about the brothers you would like to know the answers to.
```

## Suggested ansŵer

## Dear Brothers Grimm,

I enjoged leaming about gour lives. I did not know that gou started out studging law. I thought it was interesting that you changed your career choice once $\mathfrak{y o u}$ got to college I also thought it was neat the $\hat{w}$ âg gou considered gourselves story collectors, since gou were retelling old stories.

Mg favorite tale is "Hansel and Gretel". I like how the kids are such good problem solvers and are so brave But I also like hoŵ it tells a lesson about not wandering off to places gou know gou shouldn't go.

After I read about gou, I wondered if gou had a favorite tale? I thought it was interesting the wag you both studied and worked together, and I $\hat{w}$ onder if g ou ever had disagreements?

Thank gou for writing gour stories!

Sincerelg,
Kara

Answer the following questions in your own words.
1 What is a claim?
(2) How do authors support their claims?
(3) What questions can you ask yourself as you read to analyze an author's claims?

Answer the following questions in your own words.
(1) What is a claim?

A claim is the point the author is trying to make.
(2) How do authors support their claims?

They provide reasons, and evidence to support those reasons.
(3) What questions can you ask yourself as you read to analyze an author's claims?

What is the author's point? What reasons does the author give for the claim? What support does the author offer for the reasons?

$\qquad$

Imagine you are making a trailer for a scary film.
What would your trailer look like?
In the boxes below, list three descriptive words you would use to describe the music and three images you would use.

The music I would choose would be 1.
2.
3. $\qquad$

Think of four characters you would have in your film.
What would they look like?
Character 1.

Character 2.

Character 3.

Character 4.

What words would you use to describe your film?
1.
2.
3.

```
Imagine you are making a trailer for a scary film.
What would your trailer look like?
In the boxes below, list three descriptive words you would use to describe the music and three
images you would use.
```

The music I would choose would be

## 1. Sinister

2. Tense
3. Slow

The images I would use would be 1. Dark woods
2. Abandoned house
3. Monsters

Think of four characters you would have in your film.
What would they look like?
Character 1. Sam. A brave, brown haired girl who fights off the monsters. Always wears red shoes.

Character 2. Nerman. A big, green, hairy monster, with large fangs.

Character 3. Phil. Sam's younger brother, who is afraid of the dark. Short. Wears glasses.

Character 4. Stoove. A small, slimy, pink monster with thin arms, bony hands and sharp claws.

What words would you use to describe your film?

1. Terrifying
2. Exciting
3. Shocking

Create a plan for a movie trailer.
(1) What kind of movie will you advertise?
(2) Sketch eight scenes you will show in your trailer on the Resource Sheet provided.
(3) How do these scenes help an audience know what your movie is about?
$\qquad$
$\qquad$
(4) Write a script for the voice-over.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
(5) How does this set the tone of the trailer?
$\qquad$ $工$

6 What type of music will you use?
How will this help with the tone of your trailer?

Final Cut - Answer Key
Activity Sheet
(1) What kind of movie will you advertise?

## action

$(2$ Sketch eight scenes you will show in your trailer on the Resource Sheet provided.

## Accept all reasonable responses

3 How do these scenes help an audience know what your movie is about? They show that the film is active and fast-paced.
(4) Write a script for the voice-over.

In a world that needs saving, one woman rises to the challenge! Coming soon to a theater near you: Lady Bravery!
(5) How does this set the tone of the trailer?

It is lively with action words. It has lots of energy.

6 What type of music will you use?
I will use upbeat and loud music.
(7) How will this help with the tone of your trailer? It will set an energetic and active tone.

Answer the questions in your own words.
1 What elements can you compare and contrast in a story?
(2) How are comparing and contrasting different?
(3) What is the difference between a topic and a theme?

Answer the questions in your own words.
(1) What elements can you compare and contrast in a story? themes, topics, patterns of events

## Suggested answers

(2) How are comparing and contrasting different?

Comparing is looking at how two things are the same while contrasting is looking at how they are different.
(3) What is the difference between a topic and a theme?

The topic is the subject of the story. A theme is the main idea of the story, or its message about life.

Read the Greek or Latin root.
Choose its correct meaning.

1
migr
change or move
make or do
mind or soul

4
jud
circle
law
bend

7

$(2$

5

What's the Point?
Activity Sheet

Answer the following questions in your own words.
(1) What is the difference between first-person and third-person point of view?
(2) How can you determine the point of view in a story?
(3) How can point of view help you compare and contrast two texts?

Answer the following questions in your own words.
(1) What is the difference between first-person and third-person point of view?
In first-person point of view the narrator is in the story, while in third-person point of view the narrator is not in the story.
(2) How can you determine the point of view in a story?

I can figure out the point of view by determining who the narrator is. I can look at the pronouns in the story to help me.
(3) How can point of view help you compare and contrast two texts?

I can compare the narration as well as how much information I have about different characters' thoughts and feelings.
